English - B1

Professional Profile

Backend developer with experience in C#, Azure Portal, SQL Server, SSMS, ASP.NET Core MVC, .NET 8.0, and .NET MAUI. I have developed APIs for various sectors, including a solution for the Portuguese Red Cross and the restaurant industry. I hold a degree in Marketing, which provides me with a creative and communicative approach to presenting technical solutions clearly. I also have knowledge in database administration, cybersecurity, and helpdesk.

Professional Path

"Editora Diário Oficial de Sergipe" (2015-2018): Designer, focused on editorial design and layout of various printed materials.

"Programa Nacional de Aprendizagem" (2018-2019): Marketing Technician, responsible for managing marketing and creating educational content.

Livery Brand, Madrid (2019-2021): Created the e-commerce platform, managed it, and developed online sales strategies during the pandemic.

Lusoservica, Barcelos (2022-2023): Marketing/Commercial, responsible for creating marketing strategies, developing the website and the application reception system, and managing B2B clients.

Stephubs, Florida (2023): Coordinated IT and marketing teams in the development of software, defining the customer journey.

Portuguese Red Cross (2024): .NET Developer, developing a web application for volunteer management using ASP.NET Core MVC and SQL Server (SSMS).
